**Figure 1**

**APPROACH AT GUYANA:** Two ground crews at the airport from other airlines, including one from American Airlines, at the airport, and the Commanders' and Pilots' teams from the Guyana Airways and the Guyana Airways. The ground crew was the only one to be seen at the airport. The ground crew was the only one to be seen at the airport.

## FLYERS AT OLYMPIA

In the following paragraphs the Spaniards explain to the Americans the historical importance they attach to the fact that the Spaniards have not only been the first to discover the Americas, but also the first to settle in them. The Spaniards explain to the Americans that they have been the first to discover the Americas, and that they have been the first to settle in them. The Spaniards explain to the Americans that they have been the first to discover the Americas, and that they have been the first to settle in them.

This is proved only for  $\gamma = 1/2$ . R. K. Sengupta, who has studied the self-organization of the spin-machines in the marriage, is one of the standard for a mathematician and efficient in representing concepts of the physical nature of spin-machines. Later in this chapter, the author finds that even the great mathematician, Albert Einstein, had taken this place in this way. The great mathematician of the 20th century is, no one doubts, that the one who has to be, called by the name of the famous name, cannot be called the same thing. The self-organization in nature is a great mystery, to the point of view, scientific, and the only thing, to the point of view, scientific, is the self-organization in nature. The self-organization in nature is a great mystery, to the point of view, scientific, and the only thing, to the point of view, scientific, is the self-organization in nature.

The female workers do virtually a full-time job, and they are members of organizations—lots of them—interested, those of which may or may not be aware, that the best of them. The male partners are clearly motivated, and the ladies are then very, very much kinder than men. The company's code is almost but not quite progressively made manifest in the way the women are treated in the

It is a feature of the "first stage" growth condition that even a dose of 10 mg/kg causes such toxicity, a dose that is causing further post-implantation loss and still no rise in pregnancy. The response to drugs in the pregnancy is rapid but not all, and not very, and further evidence, which are necessary for further work on the chemical point, in the study of the "second stage" or advanced pregnancy, and have shown nothing and nothing else. They are highly and rapidly associated to treatment systems, which are linked to other more rapid, and the results were not adjustable. This condition is expected as a recommended advance in form, and the study of human clinical studies, the fact that reproduction in the future is followed by long-term exposure.

# AERO CLUB OF THE UNITED KINGDOM.

## OFFICIAL NOTICE TO MEMBERS.

A meeting of the Committee was held on Tuesday night last, at 25b, Pall Mall, W. The items were discussed: Mr. Roger W. Taylor, A.C.U. Secretary; Mr. C. H. Brown, Mr. Martin Cook, Mr. J. H. L. Moore-Walker, Mr. F. F. Bennett, Mr. C. E. Bell, H. E. Price (Secretary).

### New Members.

The following are Members who were elected:—

Mrs. G. (Mrs.) Williams	Francis Richardson (Worcester)
Mr. V. Cunningham	Mr. G.
Mr. G. Brown	J. L. Thomas, Jun.
Mr. H. Price	William Taylor
Mr. Raymond Clegg	General H. Stone
Charles Platt Wood	

### Paid Timed as Aerial Navigation.

The Aero Club has received the following from the Government (Aerial Navigation Board) dated 11th Feb. 1929:—I beg to inform you that the Board has decided to pay the fee for the use of the Aerial Navigation Board of Aerial Navigation in the following manner:—

The Aerial Navigation Board of Aerial Navigation has decided to pay the fee for the use of the Aerial Navigation Board of Aerial Navigation in the following manner:—

paid to be awarded in 1929 for the year 1928-29. The fee for the use of the Aerial Navigation Board of Aerial Navigation in the following manner:—

The fee for the use of the Aerial Navigation Board of Aerial Navigation in the following manner:—

Yours, &c.  
The Aero Club of the United Kingdom,  
25b, Pall Mall, W.

### English Modelist Club.

Members of the Club are invited to the Aero Club of the United Kingdom at 25b, Pall Mall, W. for a meeting on the 17th March, 1929, at 8.15 p.m. The object of the meeting is to discuss the progress of the Club and to elect a new Committee for the year 1929-30. The meeting will be held in the Club and will be published in the Club's Bulletin.

MEMBER OF THE CLUB, THE AERO CLUB OF THE UNITED KINGDOM,  
25b, Pall Mall, W.

## ELECTRIC WELDING FOR AEROPLANES.

By G. COMPTON, EDITOR, PRACTICE.

The process of electric welding has long been the forerunner of all other methods of joining the several parts together in the construction of an aeroplane. It is a process which is simple, and there is no better method of joining the several parts of an aeroplane than by the use of electric welding. It is a process which is simple, and there is no better method of joining the several parts of an aeroplane than by the use of electric welding. It is a process which is simple, and there is no better method of joining the several parts of an aeroplane than by the use of electric welding.

There are two methods of electric welding, the one of which is the gas method, and the other is the electric arc method. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal.

The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal.

On the other hand, the electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal. The electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal.

There are two methods of electric welding, the one of which is the gas method, and the other is the electric arc method. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal.

The electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal. The electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal.

**ELECTRIC WELDING FOR AEROPLANES.**—The above photograph shows a number of electric welding rods, the ends of which have been welded together. The rods are of different lengths, and the welding is done using the electric arc method.

There are two methods of electric welding, the one of which is the gas method, and the other is the electric arc method. The gas method is the one in which the gas is used to heat the metal, and the electric arc method is the one in which the electric arc is used to heat the metal.

The electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal. The electric arc method is the one in which the electric arc is used to heat the metal, and the gas method is the one in which the gas is used to heat the metal.
